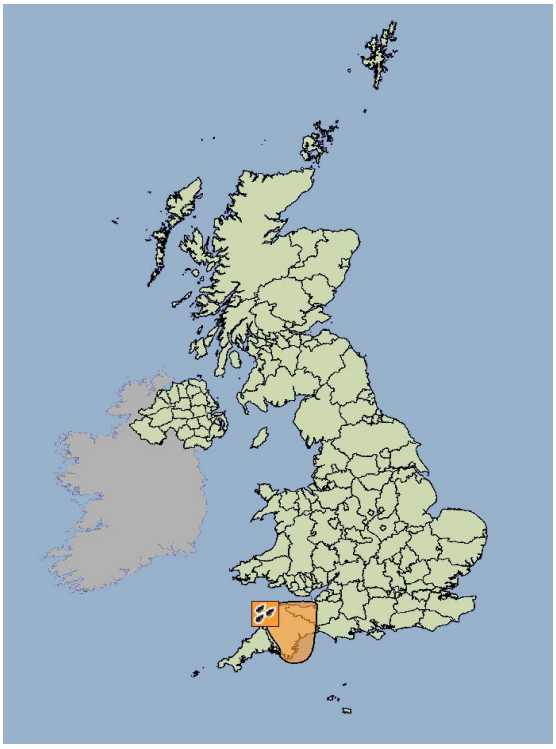
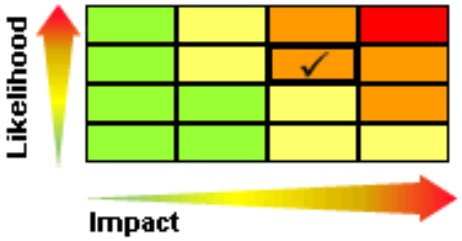
National Severe Weather Warning Service





Chief Forecasters Assessment
Some 20-30 mm of rain is expected fall in a 3-6 hour period in places, and a low risk of this falling in 1-2 hours. There could be as much as 40-60 mm possible locally through the whole of Monday. The ground has been left very wet from Saturday night's rain and this increases the risk of further flooding.

The Met Office have issued an **Amber Warning** of **Rain**

Valid from **05:00 on Mon, 21st Nov 2016** until **23:55 on Mon, 21st Nov 2016**

On Monday a further broad area of heavy, persistent rain will move northwards across southwest England. Although the more persistent rain should clear from Devon by early afternoon, heavy and possibly thundery showers are likely to follow.

Please be prepared for disruption to transport due to localised flooding, whilst flooding of homes and businesses is also possible.

This warning has been updated to extend the warning area into Somerset.
